Hey Shivam,

I hope everything's going well on your end. I wanted to reach out and request a conversation about my current salary. After being with ABC Infotech for 2 years as a Frontend developer, I feel it's the right time to discuss my contributions and potential adjustments to my compensation.

Here's a quick snapshot of some of the value I've brought to the team:

1. I successfully rolled out the new user authentication system, which has made our app way more secure and user-friendly.
2. My experience with the Frontend has helped troubleshoot some tricky problems and boosted app performance by 30%.
3. I've taken on the role of mentoring junior developers and fostering a strong, collaborative vibe in the team.

Given these contributions, I'd love the chance to discuss my salary. Let me know when would be a good time to connect. Thanks so much for your consideration!
